# Patient Wanderer Security Systems

FOR COMPLETE SAFETY

## Complete resident security and peace of mind

### **Economical and Effective "Wanderer Security"**

Our systems protect your residents and puts their family members and your staff at ease!

The staff members at your facility will be able to spend more time caring for residents and less time managing a security system. Your administrators will love the low cost of ownership!

You have three options when selecting a Wanderer Security System from Accutech. The options are based on your needs and your budget. All of the systems incorporate the same state-of-the-art RFID tags and receivers.

- IS 3200 system - A computer-enhanced system designed to deliver maximum capabilities coupled with ease-of-use operation. Suited for long-term care facilities and nursing homes.
- ES 2200 system - All the key benefits of a patient wandering system including loiter and door ajar alarm monitoring. It's easy to use and can be installed and serviced by your maintenance personnel.
- LC 1200 system - The ideal entry-level solution for facilities that want a quick, cost-effective solution. It can be set up as a stand-alone system and installed and maintained by your maintenance staff.

With Accutech, you get the affordable wanderer security solutions you need for complete resident security and peace of mind.

# Growing demand for security

Families expect their loved ones to be cared for in safe, secure facilities. As the demand increases for long-term elderly care, wanderer security systems become a necessity. Liability concerns also require facilities like yours to take preventative measures to meet this need.

Elderly populations are showing an increase in dementia, which is one of the most important health issues affecting resident security. Accutech's affordable Wanderer Security Systems allow you to provide your residents with complete safety and care without limiting their freedom.

With Accutech's experience, quality and service, we can help you choose a wanderer security system that addresses your needs so you can continue to provide excellent resident care.

Family members know their loved ones are safe and secure with Accutech's Patient Wanderer Systems.

Lightweight, water-resistant tags ensure resident safety.

All tags incorporate a red pulsating light (LED) that provides a visual indication that the tag is active.

The ease-of-use and water-resistant features make the Cut Band ideal for long-term care facilities.

# Economical and Effective “Wanderer Security” System

## Benefits:

- Notifies staff if residents try to leave the facility
- Saves time with its simple operation
- Easy to clean water-resistant tag
- Quick resident assignment
- Reduces costs with long life tags
- Low cost of ownership
- Protects against elopement and loitering
- Notifies staff if protected doors are left open

## System Features:

- Alarm information with complete history of activity
- Multiple floor monitoring capability
- Includes escort feature
- Double-conditioning design to prevent false alarms
- Financing and leasing/renting options to fit your budget
- Tag supervision
- Tamper-proof system
- Easy-to-use start-up kit
- Software enhanced
- Non-computer dependant. Continued security even without a computer
- Cut Band detection option available

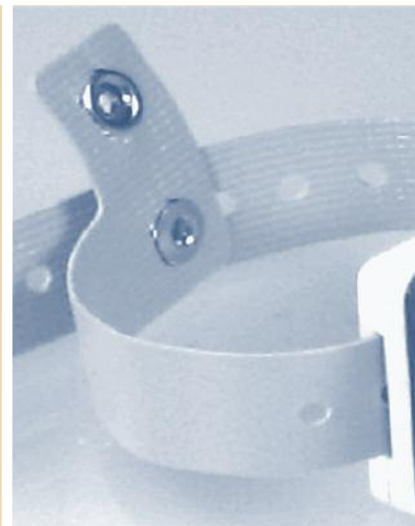

Families can't always be there, but they will feel comfortable knowing their loved one is safe and comfortable in your facility.

Our full range of Wanderer Security System products allow you to choose a system that fits your budget and facility's needs. We offer you the option of corporate pricing, government, and GPO pricing.

Our IS 3200 and ES 2200 systems meet FCC, NFPA, NEC and UL requirements and are rigorously tested for performance. You'll receive superior customer service with a network of 24-hour local service providers for quick and economical support.

Your system's quality is ensured with a one-year, non-prorated warranty on all parts and services. In addition, you'll receive free software updates with a one-time software license fee for guaranteed performance and satisfaction.
